## PRO-FUSION™

PRO-FUSION™ uniforms are manufactured through a process called sublimation in which all colors and decoration are permanently fused into the fabric using heat and the highest quality dyes. PRO-FUSION™ is lighter and more comfortable than traditional tackle twill uniforms.

### PRO-FUSION™ PRICING

- More creativity is allowed in the design process and includes the use of patterns such as camo, watermarks, and vintage flannel.
- Additional uniform styles are available.
- Decoration in six jersey locations is included in the base price.

## LEGALITY OF UNIFORMS

Due to varying and conflicting rules among state associations, individual conferences and districts, Wilson Sporting Goods Co. will not accept responsibility for the legality of uniforms, their designs or decoration.

Utmost care is used in selection of dyes to obtain the highest possible degree of color fastness. We believe our dyes to be second to none in the industry. There is no known process which can positively regulate the final results when Nylon, Orlon, Rayon, Worsted, Polyester or Cotton yarns or cloth are dyed. Every effort is made to match colors. However, it is not possible to guarantee every color. Therefore, all orders are taken with the understanding that we cannot be held responsible for fading. To safeguard against error and delay, please order by exact color (Navy Blue, Royal Blue, etc.)

Special Note: 100% polyester or polyester blend fabrics in dark shades contain dyes that may tint light colors of Screen printing ink. Wilson Sporting Goods Co. will not assume responsibility for this. Colors are shown for general reference only. Printed or digital representation of colors should not be used for matching shades.

# STANDARD EMBLEMS

Emblems are available in Screen printing, Embroidery, and PRO•FUSION™. Please specify emblem by number and indicate size and location on garment when ordering. Emblems can be 1 or 2-color applications. On this page, Color 1 is represented by black; Color 2 by white.

# TACKLE TWILL & SCREEN PRINTING PRICES

## TACKLE TWILL

Wilson® offers a large variety of Tackle Twill (TT) letters and numerals. Tackle Twill letters and numerals are separated into Class TT (A) and Class TT (B) groups. Class TT (B) letters and numerals require a higher degree of intricacy during the manufacturing process which is reflected in the cost.

Custom lettering and numeral styles are possible when supplied artwork conforms to specified guidelines on page 96.

## SUBLIMATED TWILL

The PRO-FUSION™ process allows you to create the look of twill lettering on a Custom Elite or Stock Jersey. A single layer of twill is sublimated with up to three colors and sewn on the jersey instead of layering multiple pieces of fabric to create tackle twill. The result is a lighter weight jersey with a custom look.
