**ON THE COVER AND BACK COVER: GEL-NIMBUS 18 (PAGE 6), ABOVE: fuzeX LYTE (PAGE 5)**

A woman with a natural afro hairstyle is the central figure, wearing a bright red sleeveless top and leggings with a vibrant, multi-colored geometric pattern. She is leaning her right leg on a metal railing and smiling warmly at the camera. The background is a bright, sunny outdoor setting with blurred greenery and a blue wall. The word "RUNNING" is printed in large, bold, white, italicized capital letters across the middle of the image.

# ***RUNNING***

# FOOTWEAR GUIDE

Foot pronation is a normal, natural motion and helps attenuate shock from first contact and through the gait cycle.

	<b>UNDERPRONATOR</b> (Supinator) Underpronators experience little or no normal pronation, rolling towards the lateral side of the foot.	<b>NEUTRAL</b> Neutral runners will pronate through the midstance and roll straight forward at toe-off.	<b>OVERPRONATOR</b> An Overpronator is predisposed to an inward rolling motion as the foot progresses toward toe-off.	<b>SEVERE OVERPRONATOR</b> A Severe Overpronator has an exaggerated inward rolling motion over the medial side of the foot.

## CUSHIONING

When designing the new GEL-Nimbus® 17, ASICS opted for a little more revolution than evolution. Serious weight reduction takes center stage, with a nearly seamless FluidFit® upper that fits and feels like a runner's dream. The new FluidRide® midsole and extended Rearfoot and Forefoot GEL® Cushioning Systems improve upon the already famously plush and luxurious ride. Nothing but the best would do underfoot, thus a new top-of-the-line ComforDry™ X-40 Sockliner sits atop new full-length ComforDry™ lasting for the ultimate in cushioning and comfort.

## STRUCTURED CUSHIONING

The GT-1000™ 4 G-TX will keep mild to moderate overpronators comfortably dry and sure of foot when the seasons change and the weather with it. Featuring the same supportive and cushioned ride as the GT-1000™ 4, but with the added outsole traction of Snow Rubber Compound and a waterproof GORE-TEX™ Upper.

## FEATURES

- Impact Guidance System (I.G.S.®)
- Rearfoot and Forefoot GEL® Cushioning Systems
- SpEVA® Midsole Material
- DuoMax® Support System
- Guidance Line®
- Guidance Trusstic System®
- GORE-TEX™ Upper
- Snow Rubber Outsole

# TRAINING

MET-CONVICTION

## LIFT TRAINER™

Weight\*: **13.8 oz.** U.S. Suggested Retail: **\$125.00** S5786

**S326N** 6-13, 14, 15, 16

### PERFORMANCE TRAINING

Inspired by professional weight lifting shoes, the Lift Trainer™ was made for those looking for a shoe that provides the structure and support while lifting that regular athletic shoes don't provide. The heel of the shoe has been raised while the forefoot height is decreased, putting the body in correct lifting motion and providing the best opportunity for explosiveness and power throughout the entire lift. Medial and lateral support is achieved through midsole outriggers and a midfoot strap to provide exceptional stability.

## GEL-FORTIUS™ 2 TR

Weight\*: 7.4 oz. U.S. Suggested Retail: \$95.00 S5225

S567Y 5-12

### PERFORMANCE TRAINING

Following in the footsteps, push steps and box jumps of its predecessor the new GEL Fortius™ 2 TR combines performance with durability for even the highest levels of functional performance training. The new upper of the GEL Fortius™ 2 TR features an Asymmetrical Lacing System for improved fit while the abrasion resistant quarter-panel brace and rubber toe guard provide extreme durability. As always the low-profile sole unit features midfoot wraps for extra grip and a flexible forefoot for responsive traction. The air mesh 'chimney system' from the vamp to tongue provides excellent ventilation during high-intensity workouts. The new GEL Fortius™ 2 TR will help you better your best.

## STUDIO TRAINING

The Cardio Queen of the ASICS Studio line – the new GEL-Fit Vida™ features a seamless upper with FluidFit® printed overlays for supreme comfort and fit. To support the foot, we've added a stabilizing quarter-panel brace to keep the foot on the platform. The lightweight molded EVA Midsole features a Rearfoot GEL® Cushioning System to provide shock-absorption during high-impact workouts. The outsole features a forefoot flex-groove, pivot point and 4 traction pods for improved grip and dexterity. And because you will want to wear the shoe barefoot– we've included an Ortholite® Sockliner for enhanced cushioning and odor prevention. If fitness is your lifestyle- this is the shoe for you.

GEL-CRAZE TR 3 GS

## GEL-QUANTUM 360™ GS

U.S. Suggested Retail: **\$120.00** S0066

C568N 1-7

### RUNNING

GEL runs deep! High performance with no equal, ASICS introduces the new GEL-Quantum 360™ GS – engineered for a high octane ride with 360 degrees of GEL® Cushioning technology! Designed for the young athlete demanding the ultimate in performance and endurance, with unmatched GEL® cushioning that is built to outlast the competition. The discrete construction of the full length Trusstic System® delivers support and a spring-loaded ride to power through each workout. The advanced FluidFit® upper is constructed to provide strategic support and durability, so the only thing kids will notice is how great their feet feel while wearing the GEL-Quantum 360™ GS.

### FEATURES

- Rearfoot and Forefoot GEL® Cushioning Systems
- FluidFit®
- Seamless Construction
- Trusstic System®
- Solyte® Midsole Material
- Reinforced Stitched Toe Cap

Weight\*: 8.0 oz. U.S. Suggested Retail: \$160.00 S0088 UMAP

J600Y 6-13, 14, 15

### WRESTLING

ASICS continues to lead the field in Wrestling shoe technology. The new Omniflex-Attack™ 2 is updated with nothing but the best in ASICS Wrestling Specific technical innovation. Newly redesigned Octipod outsole features wrestling-specific traction zones for extra grip and elite performance on all mat surfaces. The upper features a unique adjustable interior X-Strap configuration across the mid foot, which allows the foot to be securely locked into place while the stretchable upper synthetic materials mold to the foot for a sock-like fit. The adjustable ankle closure system eliminates laces and personalizes fit. Now the new Omniflex-Attack™ 2 goes above and beyond being just a wrestling shoe.

Weight\*: **9.0 oz.** U.S. Suggested Retail: **\$120.00** SS0066 **UMAF**

**J300Y** 6-13, 14, 15

## WRESTLING

One of the most popular shoes in the ASICS wrestling family, the newest update doesn't disappoint. A traditional upper design is highlighted by an ankle strap closure, replacing the customary lace garage system and providing a secure fit around the ankle. The aggressive DuoSole® Outsole has also been updated, providing unmatched traction whatever the position. If you're a wrestler ready to go no matter the challenge, the new Aggressor® 2 is the shoe for you.

# SOCK PACKAGING & SIZING

## ELITE PERFORMANCE

A complete ASICS® footwear story. Created with the most advanced yarn technology and ergonomic construction, Elite Performance socks offer performance and innovation, what ASICS® is known for. ASICS® PROfit Technology® showcases an engineered fit and features cushioning where it's most needed, leaving you to enjoy the ride of your favorite ASICS® shoe. This season the Nimbus® Single Tab debuts, the ultimate cushioning sock inspired by the ultimate cushioning shoe.

## WOMEN'S PERFORMANCE SPORT FASHION

This collection has been designed by women with a woman in mind. She demands function and style and these styles deliver. Colors easily tie back to her favorite ASICS® shoes and apparel and she can workout without worry, knowing ASICS® performance DNA has been infused into every style.

## PERFORMANCE ESSENTIALS

Essentials for everyday (or night), performance for every workout, this category of socks feature styles with reflectivity to provide visibility in low light conditions, cooling technology when conditions heat up, and favorites infused with ASICS® performance DNA.

## EVERYDAY PERFORMANCE

Everyday Performance styles are designed to introduce athletes to ASICS® performance socks in a price value too tempting to pass up. Featuring seamless, non-irritating toe construction, Y-heel gore shaping, mesh for breathability, and moisture management, these styles cover what an athlete needs for everyday performance.

ADULT SOCK SIZING	U.S. MEN'S SHOE SIZE	U.S. WOMEN'S SHOE SIZE	EUROPEAN SHOE SIZE	CALF GIRTH (INCHES)
XS	—	4-5.5	34-36	13"
S	—	6-7.5	37-39	14"
M	7-9	8-9.5	40-42	15.5"
L	9.5-11.5	10+	42-44	16.5"
XL	12+	—	45-47	18"

YOUTH SOCK SIZING	U.S. WOMEN'S SHOE SIZE	U.S. YOUTH SHOE SIZE	EUROPEAN SHOE SIZE
S	—	K9-K12	27-31
M	3-6	1-5	33-37
L	6.5-9.5	6-9	38-41

All sock styles are sold and shipped in multiples of three, per size, per color. Price per style.

## DRY

We know athletes sweat. We know sweat can create discomfort when it sits against the skin. ASICS® goal is to create products that pull moisture away from the skin as quickly as possible where it can evaporate, keeping athletes drier, cooler, more comfortable and allowing the focus to remain where it should be – on the workout. Products in catalog with the Dry™ callout feature this sweat moving technology for athlete comfort and a worry-free workout.

Upping the ante on Dry™ technology this season, several products showcase the sun protection and temperature regulation found in the Rally™ Crew, the fast wicking technology featured in the Nimbus® Single Tab and FujiTrail™ Quarter, and the cooling effect of the Cooling™ Single Tab and Speed Chill™ Arm Sleeves.

## THERMAL

Excellence in warmth. ASICS Thermal products are created to keep you on the move outdoors even as the temperatures drop. Combining the properties of Dry™ with the addition of thermal properties, Thermal pieces embody the coziness you need as seasons change. Our best known thermal fabric is the ASICS exclusive Thermopolis™ LT. Providing ultra soft, quick dry, breathable performance and all season layering. Protection from the elements at it's best...be a convert, join the comfort craze.

### COOLING™

Drastically cooler temperatures are created by nylon-based yarns that undergo a unique texturizing process, feature a wider surface area and small channels to move heat quickly away from the body.

### LITE-SHOW™

Retro-reflective thread technology sewn into flat lock seams bounces light rays directly back to its light source and will never wash out or fade.

### PROFIT™

Articulated construction focuses on premium fit and natural function, providing cushioning and shaping where it's needed most.

### TOELESS + GRIPPY

Toes left free to wiggle, sole of the foot stays in position with ASICS exclusive silicone gripper pattern.

### COMPRESSION

Graduated compression constructed with a 30% decrease in tension from ankle to calf, promoting oxygenation and improved recovery times.

### COMPRESSION + TEMPERATURE REGULATION

Graduated compression is constructed with a 30% decrease in tension from ankle to calf, promoting oxygenation and improved recovery times. Synthetic and natural temperature regulating yarn provide insulation and regulate temperature swings, working to prevent you getting too warm or too cool.

### APMA DOCTOR APPROVED

**NEW | NIMBUS® SINGLE TAB ZK2653**

U.S. Suggested Retail: **\$16.00** S0080

**DRY**

- 65% Nylon/19% Polypropylene/14% NanoGLIDE<sup>12</sup>/2% Spandex

ASICS ultimate cushioned sock inspired by the shoe of the same name, this quick-drying, durable single tab is engineered to fit around the contours of the feet, with targeted mesh zones for breathability and anti-friction yarn for improved comfort.
