-----------------------------------	----

Athletes aren't born.

There's talent, but that can only take you so far.

Big League hitters don't just wake up one day, walk out on the field and start crushing the ball. They wake up every single day, earlier than the rest, and work on their game. Fielding balls. Lifting weights. Never letting distractions get in their way. The game—any game—demands that kind of respect. No matter the level you ultimately achieve, when you give that respect, the game returns the favor.

In sports, there are no overnight success stories.

Marucci knows this. We started in a workshop with an idea and a flawless piece of maple. Then we spent hours upon hours perfecting our craft. No grand dreams of fame and fortune. Just a commitment to the few who are truly committed. The game teaches lessons that translate to life success. We provide tools for the best players to win in baseball and life - in the form of precision equipment and elite training, so that these dedicated athletes can play to the very height of their abilities and, by doing this, they pay their respects to the game, and to themselves.

It's quite simple, really: There are no shortcuts. No easy routes. Just hard work and hustle. When you play that way, you

HONOR THE GAME.

INTRODUCING THE 2017 CAT7 CONNECT

WITH SDX® TECHNOLOGY AND AZ4X® ALLOY

FEEL THE POWER. EXPLODE WITH FURY.

A hitter's best dream and a pitcher's worst nightmare. Featuring a more responsive, optimized barrel design, the CAT7 Connect offers the ultimate combination of weight and balance along with a sweet spot twice as large as any previous Marucci bat. The SDX connection dismisses vibrations at contact and fuses a carbon composite handle with an AZ4X alloy barrel, the strongest alloy in the Marucci lineup.

The SDX connection provides players a smooth, solid feeling at contact by dismissing vibrations giving hitters total confidence at the plate.

Advancements in technology has led to an alloy with increased strength and a higher response rate.

PRODUCTS INSPIRED, TESTED, AND APPROVED BY BIG LEAGUERS.

Marucci Partner and Player Advisory Board member Andrew McCutchen (above) and Jose Bautista (left) examined and approved designs for the 2017 CAT7 Connect.

When a Big Leaguer orders bats from us, those bats are handcrafted to his exact specifications, or his preferred cut. However, there are instances when these cuts do not meet his exact specifications of length, weight, balance point, handle or knob shape, etc. That bat is

pulled from the player's order and sold as a "Professional Cut." These are not considered "blem" bats; they simply did not match what the player requested. Customers can choose their length and color, but Pro Cuts cannot be selected by model.

The most accurate way to determine the correct size helmet is to try one on. If this isn't possible, follow the steps below and then reference the chart provided to select your size.

- 1) Using a flexible cloth measuring tape, measure the circumference around the largest cross-section of your skull, usually one inch above your eyebrows and against the top of your ears. Pull tightly over thick hair for an accurate measurement.
- 2) Use your head measurement to find your mask above.

Catcher's Chest Protector | Adult \$139.99 | Intermediate \$129.99 | Youth \$119.99

- High friction silicone coating around chest and collarbone - *Kills spin and reduces rebound on blocked balls*
- Multi piece abdominal section - *Expandable and compressible for improved fit, comfort, mobility, and breathability*
- Energy absorbing memory foams with PE reinforcements - *Keeps blocked pitches close and minimizes pain of impact*
- Removable shoulder caps - *Allows for adjustability and comfort*
- 4-way adjustable harness - *Allows for more adjustability and comfort*
- PE throat guard - *Helps protect neck*
- Tone-on-tone matte and glossy fabrics with white accent piping - *Subtle and professional styling*

The most accurate way to determine the correct size chest protector is to try one on. If this isn't possible, follow the steps below and then reference the chart provided to select your size.

- 1) Using either a ruler or flexible cloth measuring tape, measure the distance from the bottom of your throat to your waist.
- 2) Use that measurement to find your chest protector size on the chart below. If your measurement falls between two sizes, choose the larger size chest protector.
